Career Objective:

To build a professional career in geospatial analysis where I can apply Geographic Information Systems (GIS) and Remote Sensing techniques for spatial data processing, environmental monitoring, and map-based decision support. I aim to contribute to applied research and development projects related to climate change, natural hazards, and sustainable resource management.

Educational Qualification:

Bachelor of Science (BSc) in Geology and Mining

University of Barishal, Bangladesh

2020 – 2025

CGPA: 3.29 / 4.00

Master of Science (MSc) in Geology and Mining

University of Barishal, Bangladesh

2025 - Ongoing

Proposed Thesis: Remote Sensing of Surface Water Quality of The Kirtonkhola River, Barishal: Integrating Spectral Indices with Field-Based Pollutant Assessment.

Skills & Language Proficiency:

- **Geospatial & Remote Sensing:** Geospatial data analysis using ArcGIS, QGIS and Google Earth Engine
- **Programming & Data Analysis:** Python (Statistical analysis, Machine learning modelling, visualization)
- **Language Proficiency:**
 - **Bengali:** Native
 - **English:** IELTS Academic – 6.0 [26th March, 2026]

Work Experience:

• Research Assistant

1. Hydrogeological Study on south-western district of Bangladesh (December, 2024 – June, 2025)

Responsibilities included conducting a 7-day field survey to collect groundwater samples from the study area, performing geochemical analysis in the lab, and visualizing the results on maps using GIS.

2. Cyclone Vulnerability Assessment of the Central Coast of Bangladesh (March, 2022 – April, 2023)

Responsibilities involved collecting spatial and socio-economic data through household surveys using **KoboToolbox**, cleaning and integrating multi-source datasets, and applying GIS-based analytical techniques to generate vulnerability maps and spatial indicators in support of coastal risk assessment.

• Trainer:

1. Geographic Information (GIS) and Remote Sensing (RS) Basic to Advanced Course

Served as a trainer for this program hosted by the Department of Geology and Mining at the University of Barishal and funded by the ICT Ministry of Bangladesh. Responsibilities included conducting in-person classes for a cohort of **80 students**, marking technical assignments, and providing direct assistance to attendees during hands-on laboratory sessions.

Achievements:

• Divisional Winner (Barishal) — *Imagen Venture Youth Challenge 2023*

Organized by UNICEF Bangladesh and JAGO Foundation; awarded an incubation fund of USD 1,000 for innovative project development.

• Best Participant Award – *Application of GIS and RS in Research course - 2021*

Awarded by Research and Skill Development Society in recognition of outstanding performance and technical excellence.

Training and Programs:

• Database Management System (80 hours – Intermediate)

EDGE Bangladesh, March - June, 2024.

• Research Methodology: Basic to Advanced Course

Research Help Bangladesh, August 1st – October 15th, 2023.

• Application of GIS and RS Techniques in Research Using ArcGIS

Research and Skill Development Society, July 15 – September 11, 2021.

- **21 Days Online GIS Training Program Using QGIS**
Central University of Karnataka, India, September 7 – 27, 2021.

Co-Curricular Activities

- **Organizing Secretary**
Barishal University Science Club (November, 2023 – October, 2024)
- **Treasurer**
Youth Mappers, University of Barishal Chapter (December, 2023 – January, 2025)
